

CPD Seminar: External Wall Insulation Systems

Topics

- What is an external wall insulation system?
- What are the benefits of using EWIS?
- How EWIS can meet and exceed Part L of the Building Regulations
- Building to PassivHaus standards
- Duration: 45 minute presentation
15 minute Q&A session

Sto has Technical Consultants across the whole of the UK and Ireland. Plus, our team of international project managers is on hand to supply advice for projects around the world.

Other Seminars From Sto

- Rainscreen Cladding Systems - Glass
- Seamless Acoustic Ceilings

About Sto

Sto is the global leader in external wall insulation systems. We also manufacture and distribute glass rainscreen cladding systems, through-coloured synthetic renders, environmentally-friendly paints, and acoustic systems. Projects completed using Sto products provide for a healthy environment and minimise expensive maintenance costs, saving energy as well as valuable natural resources.
